Thompson & Knight:

- July 27, 2004 - Laurie Infante [214/969-1546; laurie.infante@tklaw.com] called asking for copies of TCEQ SSI and Expanded Site Inspection Workplan; later same day asked for info about IDing PRPs, and list of PRPs - I asked her to send a FOIA request since the files she asked for were too big to email. She stated that she didn't know who their client was, that she was just gathering information as directed.
